## **NOTICE TO READER**

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the condensed consolidated interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed consolidated interim financial statements of the Company have been prepared by management and approved by the Audit Committee and Board of Directors of the Company.

The Company's independent auditors have not performed a review of these condensed consolidated interim financial statements in accordance with the standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditors.

## 1. NATURE AND CONTINUANCE OF OPERATIONS

Canada Zinc Metals Corp. (the “Company”) is incorporated under the laws of the Province of British Columbia. The Company operates in one business segment, that being the exploration and evaluation of resource properties in Canada, and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete their development, and upon future profitable production.

The Company’s head office and principal address is Suite 2050-1055 West Georgia Street, PO Box 11121, Royal Centre, Vancouver, BC V6E 3P3. The registered and records office is Suite 700-595 Burrard St., PO Box 49290, Vancouver, BC V7X 1S8.

These consolidated interim financial statements have been prepared on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to commence profitable operations in the future.

While the Company has been successful in obtaining its required financing in the past, mainly through the issuance of equity capital, there is no assurance that such financing will be available or be available on favorable terms. An inability to raise additional financing may impact the future assessment of the Company as a going concern. The consolidated interim financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

At March 31, 2014, the Company has a working capital of \$12,850,410 (June 30, 2013 - \$14,625,726). Management believes the Company has sufficient working capital to maintain its operations and its activities for the next fiscal year.

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

These financial statements were authorized for issue on May 29, 2014 by the directors of the Company.

### *Statement of compliance*

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting (“IAS 34”) using accounting policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

### *Statement of compliance (cont'd)*

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with those used in the Company's annual financial statements for the year ended June 30, 2013 except for new standards, interpretations and amendments mandatory effective for the first time from January 1, 2013. It is therefore recommended that these condensed interim financial statements be read in conjunction with the Company's audited consolidated financial statements for the year ended June 30, 2013.

Section *New standards and interpretations* in Note 2 below sets out the impact of new standards, interpretations and amendments that have had a material effect on the financial statements.

### *Basis of Preparation*

These condensed consolidated interim financial statements of the Company have been prepared on an accrual basis except for certain cash flow information and are based on historical costs, except for certain financial instruments classified as financial instruments at fair value through profit and loss or available-for-sale which are stated at their fair value. The consolidated interim financial statements are presented in Canadian dollars unless otherwise noted, which is also the functional currency of the Company and its subsidiary.

The accounting policies chosen by the Company have been applied consistently to all periods presented.

### *Principles of consolidation*

These condensed consolidated interim financial statements include amounts of the Company and its wholly owned subsidiary Ecstall Mining Corp. ("Ecstall"), a company incorporated under the laws of the Province of British Columbia and engaged in the exploration and evaluation of resource properties.

Subsidiaries are corporations in which the Company is able to control the financial operating, investing and financing activities and policies, which is the authority usually connected with holding majority voting rights. The consolidated financial statements include the accounts of the Company and its controlled entity from the date on which control was acquired. Ecstall uses the same reporting period and the same accounting policies as the Company.

All inter-entity balances and transactions, including unrealized profits and losses arising from inter-company transactions, have been eliminated in full on consolidation.

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

### *New standards and interpretations*

The standards and interpretations within IFRS are subject to change and accordingly, the accounting policies that are relevant to these interim financial statements will be finalized when the annual IFRS financial statements are prepared for the year ending June 30, 2014.

At the date of authorization of these financial statements, the following new standards, amendments and interpretation were adopted by the Company:

### *IFRS 10 Consolidated Financial Statements*

IFRS 10 establishes a single control model that applies to all entities including special purpose entities. IFRS 10 replaces the parts of previously existing IAS 27 Consolidated and Separate Financial Statements that dealt with consolidated financial statements and SIC-12 Consolidation – Special Purpose Entities.

IFRS 10 changes the definition of control such that an investor controls an investee when it is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. To meet the definition of control in IFRS 10, all three criteria must be met, including: (a) an investor has power over an investee; (b) the investor has exposure, or rights, to variable returns from its involvement with the investee; and (c) the investor has the ability to use its power over the investee to affect the amount of the investor's returns. IFRS 10 had no impact on the consolidation of investments held by the Company.

### *IFRS 11 Joint Arrangements*

IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities — Non-monetary Contributions by Venturers. IFRS 11 removes the option to account for jointly controlled entities (JCEs) using proportionate consolidation. Instead, JCEs that meet the definition of a joint venture under IFRS 11 must be accounted for using the equity method. As the Company does not currently have any partnerships in joint ventures or JCEs, the adoption of this standard had no impact on the financial statements of the Company.

### *IFRS 12 Disclosure of Interests in Other Entities*

IFRS 12 sets out the requirements for disclosures relating to an entity's interests in subsidiaries, joint arrangements, associates and structured entities. The Company has not had any changes in its corporate structure during the period. The principles of consolidation and interest in subsidiaries are disclosed earlier in this note.

(Expressed in Canadian Dollars, unless otherwise stated)  
(Unaudited, prepared by management)

---

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

### *New standards and interpretations (cont'd)*

#### *IFRS 13 Fair Value Measurement*

IFRS 13 establishes a single source of guidance under IFRS for all fair value measurements. IFRS 13 does not change when an entity is required to use fair value, but rather provides guidance on how to measure fair value under IFRS when fair value is required or permitted. The application of IFRS 13 has not materially impacted the fair value measurements carried out by the Company.

IFRS 13 also requires specific disclosures on fair values, some of which replace existing disclosure requirements in other standards, including IFRS 7 Financial Instruments: Disclosures. Some of these disclosures are specifically required for financial instruments, thereby affecting the condensed consolidated interim financial statements period. The Company provides these disclosures in Note 14.

#### *IAS 1 Other Comprehensive Income*

The amendment to IAS 1, Presentation of Financial Statements requires to group items within other comprehensive income that may be reclassified to profit or loss and those that will not be reclassified. For the periods presented, comprehensive loss includes holding gains and losses from financial instruments classified as available-for-sale. This amendment did not affect financial results of the Company and additional disclosure will be included in its annual consolidated financial statements for the year ended June 30, 2014.

The following new or amended standards and interpretations that are mandatory for the annual periods beginning on or after January 1, 2013 have not had any impact on the Company:

*IFRS 7* Financial instruments: Amendments – Offsetting Financial Assets and Financial Liabilities;  
*IAS 19* Employee Benefits (Amendments) and  
*IFRIC 20* Stripping Costs in the Production Phases of a Surface Mine.

In addition, the Company adopted the following accounting policy related to farm-out arrangements:

#### *IFRS 6 – Exploration and Evaluation Expenditures*

The Company may occasionally enter into farm-out arrangements, whereby the Company will transfer part of a mineral interest, as consideration, for an agreement by the transferee to meet certain exploration and evaluation expenditures, which would have otherwise been undertaken by the Company. The Company does not record any expenditures made by the farmee on its behalf. Any consideration received from the agreement will be credited against the costs previously capitalized to the mineral interest given up by the Company, with any excess recorded as a gain or loss on disposal.

(Expressed in Canadian Dollars, unless otherwise stated)  
(Unaudited, prepared by management)

---

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

### *Significant accounting judgements, estimates and assumptions*

The preparation of interim consolidated financial statements in conformity with IAS 34 requires management to make judgments, estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent liabilities at the date of the financial statements and the reported amount of expenses during the reporting period.

Estimates and assumptions are continuously evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

### **Critical Judgments**

The preparation of the interim consolidated financial statements requires management to make judgments regarding the going concern of the Company as discussed in Note 1.

### **Key Sources of Estimation Uncertainty**

Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of assets and liabilities at the date of the consolidated financial statements and the reported amounts of expenses during the reporting periods. Actual results could differ from those estimates and such differences could be significant. Significant estimates made by management affecting our consolidated financial statements include:

#### *Share-based payments*

We measure our share-based payment expense by reference to the fair value of the stock options at the date at which they are granted. Estimating fair value for granted stock options requires determining the most appropriate valuation model which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the option, volatility, dividend yield, and rate of forfeitures and making assumption about them.

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

### *Significant accounting judgements, estimates and assumptions (continued)*

#### *Financial Instruments*

The fair values of financial instruments are estimated based upon market and third party inputs. These estimates are subject to change with fluctuations in commodity prices, interest rates, foreign currency exchange rates and estimates of non-performance risk.

#### *Deferred tax Assets & Liabilities*

The measurement of deferred income tax provision is subject to uncertainty associated with the timing of future events and changes in legislation, tax rates and interpretations by tax authorities. The estimation of taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company's ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful operations of the Company. To the extent that management's assessment of the Company's ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and deferred tax provisions or recoveries could be affected.

#### *Useful Life of Equipment and Leasehold improvements*

Each significant component of an item of Equipment and Leasehold improvements is depreciated over its estimated useful life. Estimated useful lives are determined based on current facts and past experience, and take into consideration the anticipated physical life of the asset, existing long-term sales agreements and contracts, current and forecasted demand, the potential for technological obsolescence, and regulations.

#### *Standards and interpretations issued but not yet effective*

Other accounting standards or amendments to existing accounting standards that have been issued but have future effective dates are either not applicable or are not expected to have a significant impact on the Company's financial statements.

The Company has not early adopted these standards and is currently assessing the impact that these standards will have on its financial statements.

## 2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

### *Standards and interpretations issued but not yet effective (cont'd)*

- (a) *IFRS 9*: New standard that replaces IAS 39 for classification and measurement of financial assets, effective for annual periods beginning on or after January 1, 2015;
- (b) *IFRS 10* Investment Entities: Amendment: effective for periods on or after January 1, 2014;
- (c) *IAS 32* Amendment to clarify requirements for offsetting financial assets and financial liabilities, effective for annual periods beginning on or after January 1, 2014; and
- (d) *IFRIC 21* Levies: effective for periods on or after January 1, 2014.

## 3. RECEIVABLES

	March 31, 2014	June 30, 2013
Government Sales Tax credits	\$ 29,576	\$ 42,210
Interest accrued on GICs (Note 5)	3,623	539
Other	5,841	60
	<u>\$ 39,040</u>	<u>\$ 42,809</u>

Other receivables at March 31, 2014 consist of recoverable exploration expenditures.

## 4. MARKETABLE SECURITIES

The Company holds marketable securities that have been designated as available-for-sale as follows:

	March 31, 2014	June 30, 2013
Common shares of public companies:		
Cost	\$ 1,665,140	\$ 1,677,844
Less: accumulated unrealized holding losses	(1,298,196)	(598,864)
Fair value	<u>\$ 366,944</u>	<u>\$ 1,078,980</u>

## 5. OTHER ASSETS

Other assets comprise reclamation bonds of \$332,500 (June 30, 2013 – \$332,500) posted as security deposits with the Government of British Columbia in relation to the Akie and Kechika Regional properties. The reclamation bonds are deposited in GICs through a financial institution and earn an average annual variable interest rate of approximately 1.06% payable to the Company at annual maturity dates.

(Unaudited, prepared by management)

## 6. TRADE PAYABLES AND ACCRUED LIABILITIES

	March 31, 2014	June 30, 2013
Trade payables	\$ 206,320	\$ 224,755
Accrued liabilities	38,517	118,063
	\$ 244,837	\$ 342,818

## 7. FLOW-THROUGH PREMIUM LIABILITY

	March 31, 2014	June 30, 2013
Balance, beginning of period	\$ 276,493	\$ –
Recorded	257,228	337,500
Amortized	(276,493)	(61,007)
Balance, end of period	\$ 257,228	\$ 276,493

The unamortised balance of the flow-through liability of \$257,228 as of March 31, 2014 consists of the following:

- the flow-through liability of \$126,756 recorded in connection with the December 2013 flow-through private placement of 2,112,600 shares (Note 10(b)(ii)) calculated based on an estimated premium of \$0.06 per a flow-through share issued; and
- the flow-through liability of \$130,472 recorded in connection with the February 2014 flow-through private placement of 1,739,630 shares (Note 10(b)(iii)) calculated based on an estimated premium of \$0.075 per a flow-through share issued.

The flow-through premium liability does not represent a cash liability to the Company and is to be fully amortized to the statement of operations and comprehensive loss pro-rata with the amount of qualifying flow-through expenditures that will be incurred in 2014 and 2015 applicable to the flow-through financing completed.

The flow-through agreements require the Company to renounce certain deductions for Canadian exploration expenditures incurred on the Company's resource properties. The Company renounced the full subscription amounts to the flow-through shareholders under the "look-back rule" for the 2012 calendar year.

The flow through liability of \$337,500 recorded in fiscal 2013 was fully amortised as a deferred income tax recovery as the Company incurred \$3,000,000 in qualifying resource expenditures in connection with the flow-through private placement completed in November 2012 (Note 10(b)(vi)).

During the quarter ended March 31, 2014, the Company paid \$74,670 (2013 - \$Nil) in flow-through Part XII.6 tax as a result of the "look-back" renunciation on the flow-through private placement completed by the Company in November 2012 (Note 10(b)(vi)).

## 9. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource claims. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its claims are in good standing.

### **Akie Property, British Columbia**

The Akie property is the Company's flagship exploration project and is host to the Cardiac Creek SEDEX Zn-Pb-Ag deposit. The Company owns a 100% interest in the Akie property, which resulted from Company expenditures and the acquisition of Ecstall Mining Corporation.

### **Kechika Regional project, British Columbia**

The Kechika Regional project, represented by a series of contiguous property blocks including Pie and Mt. Alcock, extends northwest from the Akie property. The Company owns a 100% interest in these properties, which were acquired during fiscal 2007 and 2008, including the acquisition of Ecstall. The interest in the Mt. Alcock property is subject to a 1.0 % net smelter royalty.

The Company applies for the 20% British Columbia Mining Exploration Tax Credit ("METC") and the enhanced tax credit of an additional 10% for Mountain Pine Beetle affected areas, on qualified mining exploration costs incurred.

In September 2013, the Company entered into an option agreement (the "Agreement") with Teck Resources Limited ("Teck") that that would see Teck acquire up to a 70% interest in the Company's Pie, Cirque East and Yuen properties (the "Property"), three of the 10 regional properties that make up the Kechika Regional Project.

The Agreement outlines two options (the "Options") that are subject to certain expenditure requirements as outlined below:

- Under the first Option, Teck can earn an undivided 51% interest in and to the Property by incurring a cumulative aggregate of \$3,500,000 in exploration expenditures on the Property on or before September 30, 2017, with \$500,000 in exploration expenditures to be completed on or before September 30, 2014 and \$1,500,000 in cumulative exploration expenditures to be completed on or before September 30, 2015.
- Under the second Option, Teck may elect to acquire an additional 19% interest in the Property for a total of 70% by incurring an additional \$5,000,000 in exploration expenditures (for a total aggregate of \$8,500,000 in exploration expenditures) on the Property on or before September 30, 2019.

Subject to one or more of the Options being exercised, Teck and the Company will form a joint venture to continue with exploration and, if warranted, development of the Property.

## 10. CAPITAL STOCK AND RESERVES

### (a) Authorized

Unlimited common shares without par value

### (b) Issued and outstanding

During the nine months ended March 31, 2014:

- (i) the Company completed a private placement, in connection with the Agreement (Note 9), issuing to Teck 1,250,000 units of the Company at a price of \$0.40 per unit, resulting in a total subscription of \$500,000. Each unit consisted of one common share and one share purchase warrant that will entitle Teck to purchase one additional common share of the Company within 24 months at a price of \$0.40 per share. The Company paid \$3,250 in regulatory filing fees in connection with the private placement.

The proceeds from the issue of units were allocated to capital stock based on the fair value of the common shares on the date of the TSXV approval of the transaction, which was estimated at \$288,750. The premium paid for the shares in excess of the market value was \$211,250, or \$0.169 per share. The Company recorded the premium in Equity reserves (Note 10(e)) until Teck exercises one of the Options of the Agreement and earns an interest in the Property (Note 9). No gain or loss was recognised on the transaction;

- (ii) the Company completed a flow-through private placement of 2,112,600 shares at a price of \$0.40 per common share for gross proceeds of \$845,040. The Company paid a finder's fee of \$33,802 and incurred regulatory filing fees and other expenses of \$6,075 in connection with the private placement;
- (iii) the Company completed a flow-through private placement of 1,739,630 shares at a price of \$0.575 per common share for gross proceeds of \$1,000,287. The Company paid a finder's fee of \$40,011 and incurred regulatory filing fees and other expenses of \$6,052 in connection with the private placement;
- (iv) the Company completed a non flow-through private placement of 200,000 units at a price of \$0.50 per unit for gross proceeds of \$100,000. Each unit consists of one common share and one-half share purchase warrant of the Company. Each whole warrant entitles the holder to purchase one additional common share at a price of \$0.75 for a period of 18 months from closing. The Company paid a finder's fee of \$4,000 and incurred regulatory filing fees and other expenses of \$1,350 in connection with the private placement;

## 10. CAPITAL STOCK AND RESERVES (cont'd)

### (b) Issued and outstanding (cont'd)

- (v) 1,355,000 share options were exercised at an average price of \$0.30 per share, and 1,355,000 common shares were issued for total proceeds of \$400,050. In addition, a reallocation of \$566,950 from reserves to capital stock was recorded on the exercise of these options. This amount constitutes the fair value of options recorded at the original grant date and on subsequent re-pricing;
- (vi) the Company received TSXV approval for its new Normal Course Issuer Bid ("NCIB") application to purchase at market price up to 7,114,957 common shares, being approximately 5% of the Company's issued and outstanding common shares through the facilities of the TSXV. The bid commenced on August 1, 2013 and will stay open for another 12 months; and
- (vii) the Company repurchased under the NCIB 68,500 of its common shares for a total consideration of \$19,740 at a weighted average price of \$0.29 per share, all of which were held in the Company's treasury at March 31, 2014.

During the year ended June 30, 2013:

- (viii) the Company completed a flow-through private placement of 7,500,000 units at a price of \$0.40 per unit for gross proceeds of \$3,000,000. Each unit consists of one flow-through common share and one-half share purchase warrant of the Company. Each whole warrant entitles the holder to purchase one additional common share at a price of \$0.60 for a period of 18 months from closing. The Company paid a finder's fee of \$120,000 and regulatory filing fees of \$16,350 in connection with the private placement;
- (ix) the Company received TSXV approval for its new NCIB application to purchase at market price up to 6,825,681 common shares, being approximately 5% of the Company's issued and outstanding common shares through the facilities of the TSXV. The bid commenced on August 1, 2012 and will stay open for another 12 months;
- (x) the Company repurchased under the NCIB 1,048,000 common shares for a total consideration of \$348,198 at a weighted average price of \$0.33 per share;
- (xi) the Company repurchased a total of 1,714,500 common shares under the NCIB, of which 666,500 were repurchased in fiscal 2012. The common shares were cancelled and returned to the Company's treasury. Upon the cancellation, \$1,126,002 was recorded as a reduction to capital stock for the assigned value of the shares, and \$463,659 was allocated to reserves;
- (xii) an aggregate of 150,000 share options were exercised at a price of \$0.25 per share and 150,000 common shares were issued for total proceeds of \$37,500. In addition, a reallocation of \$148,123 from reserves to capital stock was recorded on the exercise of these options. This amount constitutes the fair value of options recorded at the original grant date and on subsequent re-pricing.

## 10. CAPITAL STOCK AND RESERVES (cont'd)

### (c) Share options

The Company has adopted a 20% fixed share option plan whereby the Company has reserved 20,557,283 common shares under the plan. The term of any options granted under the plan is fixed by the Board of Directors and may not exceed ten years from date of grant.

The number of options granted to a consultant in a 12 month period must not exceed 2% of the issued shares of the Issuer from the date of grant. Options issued to consultants performing investor relations activities must vest in stages over 12 months with no more than 1/4 of the options vesting in any three month period. Share options granted to directors, officers and employees of the Company vest immediately.

Share option transactions and the number of share options outstanding are summarized as follows:

	Options Outstanding	Weighted Average Exercise Price
Balance, June 30, 2012	7,775,000	\$ 0.50
Exercised	(150,000)	0.25
Expired	(445,000)	0.81
Forfeited	(32,500)	0.53
Outstanding, June 30, 2013	7,147,500	0.49
Granted	1,740,000	0.39
Exercised	(1,355,000)	0.30
Expired	(125,000)	0.25
Outstanding, March 31, 2014	7,407,500	\$ 0.50

Share options outstanding and exercisable at March 31, 2014 are summarized as follows:

Number of Options	Exercise Price	Expiry Date	Number of Options Exercisable
130,000	\$0.70	November 14, 2016	130,000
295,000	\$1.05	February 11, 2018	295,000
270,000	\$0.25	October 31, 2018	270,000
700,000	\$0.40	September 22, 2014	700,000
330,000	\$0.40	October 9, 2019	330,000
440,000	\$0.41	October 13, 2016	440,000
1,205,000	\$0.63	January 15, 2020	1,205,000
300,000	\$0.50	May 10, 2015	300,000
417,500	\$0.50	November 8, 2020	417,500
1,430,000	\$0.55	November 24, 2020	1,130,000
150,000	\$0.60	January 7, 2015	150,000
1,740,000	\$0.39	December 27, 2023	1,567,500
7,407,500			6,935,000

## 10. CAPITAL STOCK AND RESERVES (cont'd)

### (c) Share options (cont'd)

During the nine months ended March 31, 2014, the Company recorded share-based compensation expense of \$596,275 (2013 – \$36,894) for 1,740,000 (2013 – Nil) share options granted to directors, officers, employees and consultants of the Company, of which 1,510,000 options vested immediately. No share options were granted during the nine months ended March 31, 2013.

The fair value of stock options used to calculate compensation expense for options vested during the period has been estimated using the Black-Scholes option pricing model with the following weighted average assumptions:

Nine months ended March 31,	2014	2013
Number of options vested	1,649,802	72,341
Risk free interest rate	2.41%	2.88%
Expected dividend yield	0%	0%
Stock price volatility	87%	106%
Expected life of options	10 years	9.82 years
Weighted average fair value of options	\$ 0.36	\$ 0.51
Forfeiture	0%	0%

### (d) Warrants

Share purchase warrants transactions and warrants outstanding are summarized as follows:

	Warrants Outstanding	Weighted Average Exercise Price
Balance , June 30, 2012	18,115,612	\$ 0.80
Issued (Note 10 (b)(v))	3,750,000	0.60
Expired	(18,115,612)	0.80
Balance, June 30, 2013	3,750,000	0.60
Issued (Note 10 (b)(i)(iv))	1,350,000	0.43
Balance, March 31, 2014	5,100,000	\$ 0.55

## 12. RELATED PARTIES TRANSACTIONS (cont'd)

- (i) On May 1, 2007, the Company entered into a management and administrative agreement with Varshney Capital Corp. ("VCC"), a company with two common directors, whereby the Company agreed to pay management and administrative fees of \$12,500 and \$5,000 per month, respectively. Effective July 1, 2011, the agreement was amended to increase the monthly management fee to \$24,500.

During the nine months ended March 31, 2014, the Company paid or accrued \$220,500 (2013 – \$220,500) for management fees and \$45,000 (2013 – \$45,000) for administrative fees to VCC;

- (ii) the Company paid bonuses of \$48,906 (2013 - \$63,000) to a company with two common directors;
- (iii) the Company paid or accrued \$11,250 (2013 - \$11,250) for consulting fees to a company controlled by a director;
- (iv) the Company paid or accrued \$37,500 (2013 - \$37,500) in directors' fees to five directors of the Company;
- (v) the Company paid or accrued exploration and evaluation costs of \$105,012 (2013 - \$105,012) for geological consulting fees and \$2,000 bonus to a company owned by an officer of the Company; and
- (vi) Share-based payments are the fair value of options that have been granted to directors and executive officers and the related compensation expense recognized over the vesting periods.

During the nine months ended March 31, 2014, 620,000 share options were exercised by the CEO and CFO of the Company at an average price of \$0.25 per share of for total proceeds of \$155,000.

As at March 31, 2014, \$226 (June 30, 2013 - \$18,310) was due to a director of the Company for reimbursement of business expenses. The amount was paid subsequent to March 31, 2014.

## 13. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments based on the funds available in order to support continued operation and future business opportunities. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company considers its capital to be equity.

The Company's operations are currently not generating positive cash flow; as such, the Company is dependent on external financing to fund its activities. In order to carry out potential expansion and to continue operations, and pay for administrative costs, the Company will spend its existing working capital, and raise additional amounts as needed. Companies in this stage typically rely upon equity and debt financing or joint venture partnerships to fund their operations. The current financial markets are very difficult and there is no certainty with respect to the Company's ability to raise capital. However, the Company feels that it has sufficient working capital to continue with planned activities.

## 13. CAPITAL MANAGEMENT (cont'd)

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the nine months ended March 31, 2014. The Company is not subject to externally imposed capital requirements.

## 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

### *Financial instruments*

The Company has classified each financial instrument into one of the following categories: (1) financial assets or liabilities at fair value through profit or loss ("FVTPL"), (2) loans and receivables, (3) financial assets available-for-sale, (4) financial assets held-to-maturity, and (5) other financial liabilities. Subsequent measurement of financial instruments is based on their classification. All financial instruments are initially recognized at fair value on the statement of financial position.

The Company uses the following hierarchy for determining and disclosing the fair value of the financial instruments by valuation technique:

- i) Level 1 – Applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.
- ii) Level 2 – Applies to assets or liabilities for which there are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly such as quoted prices for similar assets or liabilities in active markets or indirectly such as quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions.
- iii) Level 3 – Applies to assets or liabilities for which there are unobservable market data.

Cash and cash equivalents, and marketable securities have been measured at fair value using Level 1 inputs.

The Company has classified its cash and cash equivalents as at FVTPL. Marketable securities are classified as available-for-sale. Receivables (excluding GST receivable) are classified as loans and receivables and trade payables and accrued liabilities, and due to related parties are classified as other financial liabilities, all of which are measured at amortized cost.

## 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

The Company's financial instruments at March 31, 2014 are as follows:

	<i>Loans &amp; receivables</i>	<i>Available for sale</i>	<i>Fair Value through Profit or Loss</i>	<i>Other financial liabilities</i>
<b>Financial assets</b>				
Cash and cash equivalents	\$ –	\$ –	\$ 12,382,937	\$ –
Receivables	9,464	–	–	–
Marketable securities	–	366,934	–	–
<b>Financial liabilities</b>				
Trade payables and accrued liabilities	–	–	–	244,837
Due to related parties	–	–	–	226
	\$ 9,464	\$ 366,944	\$ 12,382,937	\$ 245,063

Unless otherwise disclosed their carrying values approximate their fair values due to the short term nature of these instruments.

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

Cash and cash equivalents, and marketable securities are carried at fair value using a level 1 fair value measurement. The carrying value of receivables, trade payables and accrued liabilities and due to related parties approximate their fair value because of the short-term nature of these instruments.

### *Credit Risk*

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank deposits of \$12,382,937. As all bank accounts are held with a major bank in Canada, there is a concentration of credit risk with one bank in Canada. This risk is managed by using a major bank that is a high credit quality financial institution as determined by rating agencies.

The Company's secondary exposure to credit risk is on its receivables. This risk is minimal as receivables consist primarily of refundable government sales taxes, exploration tax credits and interest accrued on GIC investments.

## 14. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

### *Liquidity Risk*

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash and cash equivalents. As at March 31, 2014, the Company was holding cash deposits of \$12,382,937 to settle current cash liabilities of \$245,063. Management believes it has sufficient funds to meet its current obligations as they become due and to fund its exploration projects and administrative costs.

### *Market risk*

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant and the Company, as all other companies in its industry, has exposure to these risks.

#### *a. Interest Rate Risk*

The Company is exposed to interest rate risk as its bank treasury account earns interest income at variable rate of prime less 1.5%.

#### *b. Currency Risk*

The Company operates in Canada and is therefore not exposed to significant foreign exchange risk arising from transactions denominated in a foreign currency.

#### *c. Price risk*

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors certain commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

The Company also maintains investments in certain marketable securities. There can be no assurance that the Company can exit these positions if required, resulting in proceeds approximating the carrying value of these securities.
