Supplemental disclosure with respect to cash flows (Note 13)
The accompanying notes form an integral part of these condensed consolidated interim financial statements.

1. NATURE AND CONTINUANCE OF OPERATIONS

Canada Zinc Metals Corp. (the "Company") is incorporated under the laws of the Province of British Columbia. The Company operates in one business segment, that being the exploration and evaluation of resource properties in Canada, and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete their development, and upon future profitable production.

The Company's head office and principal address is Suite 2050-1055 West Georgia Street, PO Box 11121, Royal Centre, Vancouver, BC V6E 3P3. The registered and records office is Suite 400, 725 Granville Street, Vancouver, BC, V7Y 1G5.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which presumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since its inception and the ability of the Company to continue as a going-concern depends upon its ability to raise adequate financing and to commence profitable operations in the future.

While the Company has been successful in obtaining its required financing in the past, mainly through the issuance of equity capital, there is no assurance that such financing will be available or be available on favorable terms. An inability to raise additional financing may impact the future assessment of the Company as a going concern. The consolidated financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

At March 31, 2017, the Company has a positive working capital position of $7,404,203 (June 30, 2016 - $6,589,784). Management believes the Company has sufficient working capital to maintain its operations and fund its exploration activities for the next fiscal year.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION

These financial statements were authorized for issue on May 17, 2017 by the directors of the Company.

Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting ("IAS 34") using accounting policies consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB").

These condensed consolidated interim financial statements have been prepared using accounting policies consistent with those used in the Company's annual financial statements for the year ended June 30, 2016 except for new standards, interpretations and amendments mandatory effective for the first time from July 1, 2016.

It is, therefore, recommended that these condensed interim financial statements be read in conjunction with the Company's audited consolidated financial statements for the year ended June 30, 2016.

Basis of preparation

These condensed consolidated interim financial statements of the Company have been prepared on an accrual basis except for certain cash flow information and are based on historical costs, except for certain financial instruments classified as financial instruments at fair value through profit and loss or available-for-sale which are stated at their fair value.

2. SIGNIFICANT ACCOUNTING POLICIES AND BASIS OF PREPARATION (cont'd)

The consolidated interim financial statements are presented in Canadian dollars unless otherwise noted, which is also the functional currency of the Company and its subsidiary. The accounting policies chosen by the Company have been applied consistently to all periods presented.

Principles of consolidation

These condensed consolidated interim financial statements include amounts of the Company and its wholly owned subsidiary Ecstall Mining Corp. ("Ecstall"), a company incorporated under the laws of the Province of British Columbia and engaged in the exploration and evaluation of resource properties.

Subsidiaries are corporations in which the Company is able to control the financial operating, investing and financing activities and policies, which is the authority usually connected with holding majority voting rights. The consolidated financial statements include the accounts of the Company and its controlled entity from the date on which control was acquired. Ecstall uses the same reporting period and the same accounting policies as the Company.

All inter-entity balances and transactions, including unrealized profits and losses arising from inter-company transactions, have been eliminated in full on consolidation.

New standards and interpretations issued but not yet effective

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRIC that are mandatory for future accounting periods. The following have not yet been adopted by the Company and are being evaluated to determine their impact.

- IFRS 9: New standard that replaced IAS 39 for classification and measurement, tentatively effective for annual periods beginning on or after January 1, 2018.
- IFRS 15 – Revenue from contracts with customers, the standard on revenue from contracts with customers was issued on May 28, 2014 and is effective for annual reporting periods beginning on or after January 1, 2018 for public entities with early adoption permitted.

Accrued interest (Note 7)		1,784		338
	$	23,286	$	14,641

4. LOAN RECEIVABLE

During the nine months ended March 31, 2017, the Company advanced $100,000 to a private company located in Ontario under a promissory note bearing interest at a rate of 10% per annum for a period of 6 months. The loan is classified as a short-term loan receivable subsequently measured at amortized cost. The loan matured on February 25, 2017 and was extended for an additional 6 month period bearing the same interest rate of 10% per annum.

At March 31, 2017, the loan receivable balance was $105,973 (June 30, 2016 - $Nil) including accrued interest of $5,973 (June 30, 2016 - $Nil).

(Expressed in Canadian Dollars, unless otherwise stated)

5. MARKETABLE SECURITIES

The Company holds marketable securities that have been designated as available-for-sale as follows:

		March 31, 2017		June 30, 2016
Common shares of public companies:				
Fair value, beginning of period	$	90,400	$	48,245
Purchases		38,334		116,454
Proceeds from sales		–		(4,105) [1]

Unrealized gains (losses)		48,241		(37,679)
Fair value, end of period	$	176,975	$	90,400

(1) During the year ended June 30, 2016, the Company realized an aggregate loss of $578,629 on the sale of marketable securities, which includes a reclassification of previously recognized unrealized losses of $569,834 from Accumulated Other Comprehensive Loss ("AOCL") to Deficit.

(2) During the year ended June 30, 2016, the Company recorded a $1,071,485 write-off for its holdings in a suspended company. The write-off amount included a reclassification of previously accumulated unrealized losses of $1,047,765 from AOCL to Deficit.

6. INVESTMENTS

Investments consist of highly liquid Canadian dollar denominated non-redeemable guaranteed investment certificates ("GIC") yielding an average fixed interest rate of 1.3% per annum with maturity dates within one year. The investments are classified as FVTPL financial assets. The counter-party is a financial institution.

At March 31, 2017, the Company held two GIC investments with total principal amount of $4,000,000 (June 30, 2016 - $4,000,000) and total accrued interest of $32,259 (June 30, 2016 - $19,351).

During the nine months ended March 31, 2017, one of the Company's GIC investment with the principal amount of $2,000,000 matured paying interest of $30,247. On December 12, 2016, the Company re-invested $2,000,000 into a new redeemable GIC.

7. OTHER ASSETS

Other assets comprise of reclamation bonds totaling $332,500 (June 30, 2016 – $332,500) posted as security deposits with the Government of British Columbia in relation to the Akie and Kechika Regional properties. The reclamation bonds are deposited in GICs through a financial institution and earn an average annual variable interest rate of approximately 1.00% and reinvested on an annual basis immediately at maturity. Interest accrued on the GICs is included in receivables (Note 3).

(Expressed in Canadian Dollars, unless otherwise stated)

8. TRADE PAYABLES AND ACCRUED LIABILITIES

	March 31, 2017	June 30, 2016
Trade payables	$ 15,259	$ 97,130
Accrued liabilities	27,625	42,000

9. FLOW-THROUGH PREMIUM LIABILITY

	March 31, 2017	June 30, 2016
Balance, beginning of period	$ –	$ 136,725
Recorded	140,833	–
Amortized	–	(136,725)
Balance, end of period	$ 140,833	$ –

On December 15, 2016, the Company completed a flow-through private placement of 1,173,608 shares (Note 12(b)(i)) at a price of $0.52 per flow-through share. The Company recorded a flow-through liability of $140,833 (2016 - $Nil) in connection with the flow-through private placement, which was calculated based on an estimated premium of approximately $0.12 per flow-through share issued.

The flow-through premium liability does not represent a cash liability to the Company, and is to be fully amortized to the statement of operations and comprehensive loss pro-rata with the amount of qualifying flow-through expenditures that will be incurred in calendar 2017. The flow-through agreements require the Company to renounce certain deductions for Canadian exploration expenditures incurred on the Company's resource properties. The Company has renounced exploration expenditures of $610,276 to the flow-through subscribers for calendar 2016 using the "look-back" rule and intends to incur the expenditures in the current calendar year.

When the Company uses the "look-back" rule to renounce exploration expenditures to investors before the Company actually incurs them, the Company is liable for the flow-through Part XII.6 tax ("FT Tax"). The reconciliations of the accrued and paid FT Tax for the nine months ended March 31, 2017 and the year ended June 30, 2016 are as follows:

	March 31, 2017	June 30, 2016
Balance, beginning of period	$ –	$ 8,006
Accrued	–	262
FT Tax paid	–	(8,268)

(1) License, vehicles, camp equipment and fixtures and camp upgrades are used for exploration and evaluation activities. Depreciation for these items of $73,837 for the nine months ended March 31, 2017 (2016 - $92,508) has been capitalized to exploration and evaluation assets (Note 11). Depreciation of the remaining items of $2,674 (2015 - $3,095) has been expensed.

11. EXPLORATION AND EVALUATION ASSETS

Title to exploration and evaluation assets involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource claims. The Company has investigated title to all of its exploration and evaluation assets and, to the best of its knowledge, title to all of its claims are in good standing.

Akie Property, British Columbia

The Akie property is the Company's flagship exploration project and is host to the Cardiac Creek SEDEX Zn-Pb-Ag deposit. The Company owns a 100% interest in the Akie property, which resulted from Company expenditures and the acquisition of Ecstall Mining Corporation.

Kechika Regional project, British Columbia

The Kechika Regional project, represented by a series of contiguous property blocks including Pie and Mt. Alcock, extends northwest from the Akie property. The Company owns a 100% interest in these properties, which were acquired during fiscal 2007 and 2008, including the acquisition of Ecstall. The interest in the Mt. Alcock property is subject to a 1.0 % net smelter royalty.

In September 2013, the Company entered into an option agreement (the "Agreement') with Teck Resources Limited ("Teck") that would see Teck acquire up to a 70% interest in the Company's Pie, Cirque East and Yuen properties (the "Property"), three of the 10 regional properties that make up the Kechika Regional Project. The terms of the Agreement were amended on September 23, 2015 to revise the dates on which required exploration expenditures had to be incurred.

The Agreement outlines two options (the "Options") that are subject to certain expenditure requirements as outlined below:

- Under the first Option, Teck can earn an undivided 51% interest in and to the Property by incurring a cumulative aggregate of $3,500,000 in exploration expenditures on the Property on or before December 31, 2017 (extended from September 30, 2017), with $500,000 in exploration expenditures to be completed on or before September 30, 2014 (incurred) and $1,295,000 (amended from $1,500,000 and incurred) in cumulative exploration expenditures to be completed on or before December 31, 2015 (extended from September 30, 2015).

- Under the second Option, Teck may elect to acquire an additional 19% interest in the Property for a total of 70% by incurring an additional $5,000,000 in exploration expenditures (for a total aggregate of $8,500,000 in exploration expenditures) on the Property on or before September 30, 2019.

Subject to one or more of the Options being exercised, Teck and the Company will form a joint venture to continue with exploration and, if warranted, development of the Property.

The Company received a summary of costs from Teck confirming that during 2016 a total of $1,644,201 was spent on the Property on mapping, sampling, geophysics and drilling. The cumulative expenditures incurred on the Property total $3,034,800 to the end of December 31, 2016.

Portions of the Property fall within the area of interest provisions of the Teck and Korea Zinc joint venture (the "T-KZ JV") on their adjoining Cirque property. Korea Zinc elected to include the Agreement under the T-KZ JV and delivered Notice of Participation in the Agreement to the Company in November of 2013. Teck and Korea Zinc each hold a 50% interest in the T-KZ JV and, as a result of the Notice of Participation, will share any interest which may be acquired under the Agreement.

* The Company applies for the 20% British Columbia Mining Exploration Tax Credit ("METC") and the enhanced tax credit of an additional 10% for Mountain Pine Beetle affected areas, on qualified mining exploration costs incurred. During the year ended June 30, 2016, the Company received METC of $85,291 (2015 - $44,175) on qualified exploration expenditures incurred in fiscal 2015 in excess of the amounts renounced to flow-through investors.

The Company has applied for the BC METC of $175,301 on qualified mining exploration costs incurred in fiscal 2016, which will be recorded once the Company receives the Canada Revenue Agency assessment.

12. CAPITAL STOCK AND RESERVES

(a) Authorized

Unlimited common shares without par value

(b) Issued and outstanding

During the nine months ended March 31, 2017:

(i) the Company completed a flow-through private placement of 1,173,608 flow-through shares at a price of $0.52 per share for gross proceeds of $610,276. A flow-through premium liability of $140,833 was recorded in connection with this private placement (Note 8);

(ii) the Company also completed a brokered private placement of 3,676,000 units at a price of $0.40 per unit for gross proceeds of $1,470,400, and a non-brokered private placement of 1,787,500 units at a price of $0.40 per unit for gross proceeds of $715,000. Each unit consisted of one common share and one-half share purchase warrant of the Company. Each whole warrant entitles the holder to purchase one additional common share at a price of $0.55 for a period of 24 months from closing;

(iii) the Company paid an aggregate cash finders' fee of $139,219 and incurred regulatory filing fees, legal fees and other expenses of $99,358 in connection with the above private placements;

(iv) 45,000 share options were exercised at a price of $0.23 per share, and 45,000 common shares were issued for total proceeds of $10,350. In addition, a reallocation of $46,902 from reserves to capital stock was recorded on the exercise of these options. This amount constitutes the fair value of options recorded at the original grant date and subsequent repricing;

(v) the Company received TSX Venture Exchange ("TSX-V") approval for its new Normal Course Issuer Bid ("NCIB") application to purchase at market price up to 7,609,971 common shares, being approximately 5% of the Company's issued and outstanding common shares, through the facilities of the TSX-V. The bid commenced on August 2, 2016 and will stay open for another 12 months;

(vi) the Company repurchased 297,000 of its common shares under the NCIB for total consideration of $101,924 at a weighted average price of $0.34 per share; and

(vii) 215,000 common shares repurchased under the NCIB, of which 198,000 common shares were repurchased in fiscal 2016, were cancelled and returned to the Company's treasury in July 2016. Upon the cancellation, $136,956 was recorded as a reduction to capital stock for the assigned value of the shares, and $103,156 was allocated to reserves.

During the year ended June 30, 2016:

(viii) the Company received TSX Venture Exchange ("TSX-V") approval for its new Normal Course Issuer Bid ("NCIB") application to purchase at market price up to 7,620,721 common shares, being approximately 5% of the Company's issued and outstanding common shares, through the facilities of the TSX-V. The bid commenced on August 1, 2015 and stayed open for 12 months;

(ix) the Company repurchased 202,000 of its common shares under the NCIB for total consideration of $31,165 at a weighted average price of $0.15 per share; and

(x) 149,000 common shares repurchased under the NCIB, of which 145,000 common shares were repurchased in fiscal 2015, were cancelled and returned to the Company's treasury in July 2015. Upon the cancellation, $94,978 was recorded as a reduction to capital stock for the assigned value of the shares, and $44,170 was allocated to reserves.

(Expressed in Canadian Dollars, unless otherwise stated)

12. CAPITAL STOCK AND RESERVES (cont'd)

(c) Common stock subscribed

As at March 31, 2017, the Company received $39,600 in common stock subscription from one investor with respect to the Company's flow-through private placement of 3,415,39 flow-through shares. The Company issued 90,000 flow-through common shares for this subscription upon the closing of the private placement on April 4, 2017 (Note 17).

(d) Warrants

12. CAPITAL STOCK AND RESERVES (cont'd)

(e) Share options (cont'd)

During the nine months ended March 31, 2017, the Company granted an aggregate of 2,590,000 share options to directors, officers, employees and consultants of the Company and recorded share-based compensation expense of $573,700 (2016 – $11,266) for the vested portion of the share options granted during the period.

The Company uses the Black-Scholes option pricing model to calculate the fair value of stock options granted. The model requires management to make estimates, which are subjective and may not be representative of actual results. Changes in assumptions can materially affect estimates of fair values. The following weighted average assumptions were used to estimate the following weighted average grant date fair values:

Nine months ended March 31,	2017	2016

13. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS

Significant non-cash transactions for the nine months ended March 31, 2017 included:

- exploration and evaluation assets of $9,955 (June 30, 2016 - $32,822) in accounts payable;
- depreciation of camp equipment and upgrades of $73,837 included in exploration and evaluation assets;
- an allocation of $46,902 from reserves to capital stock upon the exercise of share options (Note 12(b));
- an allocation of $140,833 from capital stock to flow-through premium liability on the issuance of the flow-through shares in December 2016 (Note 12(b)); and
- unrealized loss of $48,241 on marketable securities due to changes in fair value, which was allocated to AOCL.

(Expressed in Canadian Dollars, unless otherwise stated)

13. SUPPLEMENTAL DISCLOSURE WITH RESPECT TO CASH FLOWS (cont'd)

Significant non-cash transactions for the nine months ended March 31, 2016 included:

- exploration and evaluation assets of $13,211 (June 30, 2015 - $443,944) in accounts payable;
- reduction in exploration and evaluation assets of $85,291 (June 30, 2015 - $Nil) to recognize METC recoverable for fiscal 2015, which is included in receivables;
- equipment and leasehold improvements of $Nil (June 30, 2015 - $52,032) in accounts payable;
- depreciation of camp equipment and upgrades of $92,508 included in exploration and evaluation assets;
- unrealized loss of $30,771 on marketable securities due to changes in fair value, which was allocated to AOCL; and
- reclassification of previously recognized unrealized losses on marketable securities of $1,617,599 from AOCL to deficit (Note 5).

14. RELATED PARTY TRANSACTIONS

Key management personnel includes persons having the authority and responsibility for planning, directing, and controlling the activities of the Company as a whole. Key management personnel comprise of the directors of the Company, executive and non-executive, and the Vice President of Exploration.

The remuneration of the key management personnel during the nine months ended March 31, 2017 and 2016 was as follows:

14. RELATED PARTY TRANSACTIONS (cont'd)

(vi) share-based compensation is the fair value of options that have been granted to directors and executive officers and the related compensation expense recognized over the vesting periods; and

(vii) other employment benefits included life insurance and health benefits for the CEO and health benefits for the CFO of the Company.

As at March 31, 2017, $5,832 (June 30, 2016 - $Nil) was due to the CEO and CFO of the Company for reimbursement of business travel expenses. The amounts were paid subsequent to March 31, 2017.

15. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments based on the funds available in order to support continued operation and future business opportunities. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company considers its capital to be equity.

The Company's operations are currently not generating positive cash flow; as such, the Company is dependent on external financing to fund its activities. In order to carry out potential expansion and to continue operations, and pay for administrative costs, the Company will spend its existing working capital, and raise additional amounts as needed.

Companies in this stage typically rely upon equity and debt financing or joint venture partnerships to fund their operations. The current financial markets are very difficult and there is no certainty with respect to the Company's ability to raise capital. However, the Company feels that it has sufficient working capital to continue with planned activities.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There were no changes in the Company's approach to capital management during the nine months ended March 31, 2017. The Company is not subject to externally imposed capital requirements.

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

Cash, long-term investment, and marketable securities are carried at fair value using a level 1 fair value measurement. The carrying value of receivables, loan receivable, refundable deposit, trade payables and accrued liabilities and due to related parties approximate their fair value because of the short-term nature of these instruments.

Credit Risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its bank deposits of $3,103,762 (June 30, 2016 - $2,550,103) and short-term investments in GICs of $4,032,259 (June 30, 2016 - $4,019,351). This risk is managed by using major Canadian banks that are high credit quality financial institutions as determined by rating agencies.

The Company's secondary exposure to credit risk is on its receivables. This risk is minimal as receivables consist primarily of refundable government sales taxes and interest accrued on GIC investment.

16. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

The Company is exposed to higher credit risk on its loan receivable with the amortized balance of $105,973 (Note 4) as it is issued under unsecured promissory note.

Liquidity Risk

Liquidity risk arises through the excess of financial obligations over available financial assets due at any point in time. The Company's objective in managing liquidity risk is to maintain sufficient readily available reserves in order to meet its liquidity requirements at any point in time. The Company achieves this by maintaining sufficient cash and cash equivalents. As at March 31, 2017, the Company was holding cash deposits of $3,103,762 to settle current cash liabilities of $48,716. Management believes it has sufficient funds to meet its current obligations as they become due and to fund its exploration projects and administrative costs in the next 12 months.

Market risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant and the Company, has exposure to these risks.

Interest Rate Risk

The Company is exposed to interest rate risk as its bank treasury account and other assets earn interest income at variable rates. The effect of a 10% fluctuation in interest rates may result in an increase or decrease in net loss of approximately $3,200.

Currency Risk

The Company operates in Canada and is therefore not exposed to significant foreign exchange risk arising from transactions denominated in a foreign currency.

Price risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors certain commodity prices, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

The Company also maintains investments in certain marketable securities. There can be no assurance that the Company can exit these positions if required, resulting in proceeds approximating the carrying value of these securities.

17. SUBSEQUENT EVENTS

On April 5, 2017, the Company completed a flow-through private placement through the sale of 3,415,390 flow-through common shares at a price of $0.44 per flow-through common share raising gross proceeds of $1,502,772. The Company paid $90,166 as finder's fees in connection with the flow-through private placement.
