Supplemental disclosure with respect to cash flows (Note 5)

The accompanying notes are an integral part of these financial statements.

1. BASIS OF PRESENTATION

These interim consolidated financial statements have been prepared using Canadian generally accepted accounting principles (Canadian GAAP). The interim consolidated financial statements include normal recurring adjustments, which in management's opinion, are necessary for a fair presentation of the financial results of the interim period presented.

The disclosures in these statements do not conform in all aspects to the requirements of Canadian GAAP for annual financial statements. These statements follow the same accounting policies and methods of their application as the most recent annual financial statements. These statements should be read in conjunction with the Company's June 30, 2006 financial statements and notes thereto.

2. ACQUISITION OF ECSTALL MINING CORPORATION

On February 23, 2007, the Company acquired approximately 96% of the issued and outstanding shares of Ecstall Mining Corporation ("Ecstall"), a junior exploration company, pursuant to its take-over bid made December 22, 2006, as amended by its Notice of Variation dated January 29, 2007 and Notice of Extension dated February 9, 2007. The conditions of its Offer were satisfied and the Company took up an aggregate of 49.3 million shares of Ecstall which were validly tendered prior to the February 23, 2007 expiry date. Pursuant to the Offer, the Company issued and distributed to those shareholders who have tendered, 0.41 of one share of the Company for each Ecstall share tendered.

The results of Ecstall's operations have been included in the consolidated financial statements since February 23, 2007.

Subsequent to the quarter ended March 31, 2007, the Company exercised its rights pursuant to compulsory acquisition procedures under the British Columbia Business Corporations Act to acquire, for the same consideration as that paid under the Offer, all of the remaining shares of Ecstall that were not tendered to the Offer.

3. RESOURCE PROPERTIES

Title to resource properties involves certain inherent risks due to the difficulties of determining the validity of certain claims as well as the potential for problems arising from the frequently ambiguous conveyancing history characteristic of many resource properties. The Company has investigated title to all of its resource properties and, to the best of its knowledge, title to all of its properties are in good standing.
